

BandCon Reports Best Quarter in Company History

Costa Mesa, Calif. November 6, 2008 – BandCon, a leading content delivery solutions provider, announced today that it had its best performing quarter in the company's history. BandCon will report a total revenue increase of 52% or \$5.3 million of revenue for the 3rd quarter ending September 30, 2008.

Founded in 2000, the company provides the internet infrastructure services needed to support one of the fastest growing markets segments today; media rich content delivered over the internet.

"Our 3rd quarter revenue results exceeded our budgeted expectations and we remain focused toward Q4 and total year revenue goals for the remainder of 2008", according to Scot Ross, BandCon CFO.

"We are very pleased with our consistent growth in all areas of our product portfolio and look to the future for continued success as we expand geographically and evaluate new services to add to our content delivery system offering", says Ari Benowitz, CEO and Founder.
