

**BandCon Ranks No. 8 on the 2008 OCBJ Fastest Growing Private Companies  
with Two-Year Revenue Growth of 323.4%**

**Costa Mesa, CA. – October 3, 2008.** The Orange County Business Journal today ranked BandCon as the 8th Fastest Growing Private Company in Orange County, CA. BandCon, a leading content delivery service provider offers a full suite of internet infrastructure services for companies with content rich web 2.0 sites such as MySpace, The Weather Channel, Neulion and Miniclip.com.

Founded in 2000, the company grew revenues 323.4% to \$14.5M for the 2 year period ending June 30, 2008. According to Scot Ross, BandCon CFO, "The company continues on that same pace as it delivers the products and services needed to support one of the fastest growing markets segments today; media rich content delivered over the internet."

"BandCon's growth is a direct result of our ability to provide innovative solutions for our customers as well as our ability to attract, develop and retain extremely talented people," said BandCon CEO, Ari Benowitz. "We are very proud to be an Orange County based company that delivers service all over the world and we share this recognition with our employees, partners, and customers."

Today's websites must engage a visitor in multiple ways with interactive content like audio and video. The richer the website's content becomes, the greater the challenge for the site owner to support its growth and scalability. BandCon helps hundreds of companies solve this problem as they deliver their content to millions of visitors each month.

BandCon's OCBJ ranking follows closely behind its recent 22nd position in the Top 100 Southern California Companies (Los Angeles-Santa Ana) and 8th place slot for the Top 100 Telecommunications Companies by Inc. 500 Magazine Fastest Growing Private Companies in 2008.
